

LH4000

Intelligent Hotel Lock System

Introduction

The intelligent hotel lock system offers standalone solution to meet hotel's demand on security and management, which features 13.56MHz Mifare card technology and hotel management software. The style and color of lock fit any type of hotel.

With the hotel management software, hotels can perform essential management tasks quickly and easily with minimal training.

The body of lock is made by zinc alloy which is strong enough to protect the system from any considerable outside impact. Lock is powered by four high-capacity alkaline AA batteries that can last up to 20,000 unlocking activities.

Specifications

Model	LH4000
Material	Zinc Alloy
Mortise	U.S. Mortise with 5 latches
Type of Card	13.56MHz Mifare
Encoder	100
Software	
Type	Hotel management software
OS	Windows XP/Vista
Power input	4 x 1.5V AA Battery
Low battery warning voltage	< 4.8V
Environment & Verification	
Temperature	0°C ~ 45°C
Humidity	20 %~ 80%
Backup Unlock Mechanism	Emergency battery & Mechanical key
Product Dimension (L x W x H)	260*70*28mm

Intelligent fingerprint door lock

- **Elegant design.**

*European style demonstrate the grade and outstanding identity

- **Composite structure**

*Durable, No losing, No deformation, strongly anti-destructive.

- **Cylinder**

*International standards for interchangeable cylinder, the internal use of strengthening the structure, a higher degree of anti-destructive.

- **Data signal lines**

*Adoption of international standard computer cable, ensure the data transmission more efficient , stable, safe.

- **Reliability**

*there will not be a mistake in 1000 consecutive normal sense

- **Extension functions**

*It integrates With all-purpose card system software, hotel management system for consumers to achieve all-purpose card functions
